

## ERRATA

BROOKER, MG., SMITH, G.T., SAUNDERS, D.A., INGRAM, J.A., LEONE, J. and DE REBEIRA, C.P.S. 1995. A biological survey of Garden Island, Western Australia: I. Birds and reptiles. *Western Australian Naturalist* 20: 169-183.

Tables 2 and 3 in the above paper inadvertently placed some figures in the wrong columns. These tables are reprinted here with the correct column placement.

Table 2. Shore, marine and waterbirds seen on two "entire perimeter" Beach Counts of Garden Island (28 km) and results of similar counts on Rottnest Island (RI) (37 km).
